

## View From My Window by Pastor Everhart

The most amazing thing happened this morning while I was out on my run. As I jogged past the Rite Aid on Eisenhower Drive their sign displayed the time and temperature as 5:59 and 60 degrees. When I got to the Dodge Dealership on the same street a block away their display said 5:58 and 64 degrees! I must have been running so fast that I actually caused time to go in reverse just like Superman did in one of his movies. Not only that but I heated up the planet by four degrees! It's a good thing I only ran four miles; although we could all use a little extra time in our day nobody likes a heat wave. I wonder if I ran the other direction if the planet would get cooler? Oh my...the thought just hit me...what if I am personally responsible for global warming? I started running a little over 25 years ago and no one was talking about the planet heating up back then – only since! Please don't share this column with anyone from the DER, EPA or Department of the Interior!
